**BOX REISSUE**

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

Pursuant to 37 C.F.R. § 1.607, and to the Reissue Patent Application and Preliminary Amendment submitted July 25, 2001 by Applicant in the above identified Reissue Application, the Commissioner is hereby respectfully formally requested to declare that an Interference should be initiated between the above application and unexpired U.S. Patent 6,092,896 (the "896 Patent"). Applicant believes that the Reissue Application and Preliminary Amendment herein, which recite the copying by Applicant in the Preliminary Amendment of all issued claims of the '896 Patent, have already clearly established the grounds for declaring an Interference, but

– as Applicant is currently involved in patent litigation with the assignees of the '896 Patent, in which litigation priority to the alleged inventions of the '896 Patent may be an issue – Applicant submits this formal request in order to make further explicit the grounds for Interference herein.

Applicant proposed that the Interference include one Count as follows:

An eyeglass device comprising:

a first frame including two retaining mechanisms for supporting a pair of lenses, and defining a frontal plane,

a bridge connecting the two retaining mechanisms and holding the two retaining mechanisms together, and

a magnetic member at the bridge for magnetically coupling to another magnetic member at the bridge of a second frame;

wherein:

the bridge of the first frame includes a cavity to receive a protrusion at the bridge of the second frame so as to further secure the attachment of the two frames when coupled; and

when the two frames are secured together, due to the locations of the magnetic members, one of the frames is restricted from moving downwards relative to the other frame.

The proposed Count corresponds exactly to Claim 1 of U.S. Patent 6,092,896 and corresponds substantially to claims 2 to 22 of that patent.

The proposed Count corresponds exactly to Claim 3 of the Application and corresponds substantially to claims 1, 2 and 4 to 21 of the Application.

Applicant copied Claims 3 to 21 from U.S. Patent 6,092,896 in a preliminary Amendment filed concurrently with this Reissue Application. These claims are identical to Claims 1-6, 8, 9, 11 and 13 to 22 of U.S. Patent 6,092,896. In the preliminary Amendment Applicant applied the claim language to the Specification of this Application.

The requirements of 35 U.S.C. § 135 (b) are met since the claims copied from U.S. Patent 6,092,896 were presented July 25, 2001, within one year of the issue date of U.S. Patent 6,092,896 on July 25, 2000.

Applicant expects to present and document for the Interference sufficient corroborative evidence as to the priority of his invention, including but not limited to a Declaration under 37 C.F.R. § 1.608 (b).

Accordingly, the prompt declaration of an Interference is respectfully submitted to be in order, and is earnestly requested.

September 30, 2001  
Dated

Respectfully submitted,  
BAKER & BOTTS, L.L.P.
